

Better Together

Please join us for Colorado's first Rehab Tri-Alliance Legislative Town Hall!

Monday, February 17, 2025

7 pm – 8 pm MT

Via Zoom

As the Colorado legislature convenes for its annual 120-day dash to the finish line, our organizations want you to be well-informed about our efforts in the Colorado General Assembly and our commitment to working together for the benefit of our professionals and all Coloradans.

The state is facing a \$1B budget shortfall and lawmakers will have difficult decisions to balance the budget. Every cut option is on the table including Medicaid rates. Your association is also working on reducing administrative barriers and expanding your scope of practice to better serve your patients with DME, school sports physicals, regulation of SLPAs outside of the school setting, and workers' compensation.
